

### **SilverStone topped the list of Custom PC Awards 2008**

SilverStone topped a list in the Custom PC Awards 2008, winning the title of the “Best Chassis Manufacturer.” This voting was carried out by Custom PC readers after being presented with a short list of manufacturers.

SilverStone is a leader in ID and mechanical design for aluminum alloy products and enclosures with expertise in high thermal and low acoustic performance. From the classic Temjin series TJ07 to the latest Fortress series FT01 and the upcoming RAVEN series RV01, SilverStone continue to provide the highest level of standards in designing and manufacturing products.
